I am writing to you with concerns about this case filing. I believe that Swing First Golf is being targeted. For the reason, I do not know. Why is it that Swing First Golf water rates have dramatically increased but the surrounding golf courses have not. I have called the golf courses within a 10 mile radius in Pinal and they have not seen an increase in water rates (One of the golf courses is owned by Gary Johnson). I believe that Johnson Utilities is doing this out of revenge and this is going to effect many people, not just Swing First Golf. We have a home on the 3rd green on Johnson Ranch golf course. If this course dries up all of the homes in Johnson Ranch will suffer tremendously. We already took a huge hit during the downfall of the housing market. We cannot afford to take another.

We all understand that water rates increase, but not 4-5 times the amount. This bullying from this MONOPOLY needs to end. If you surveyed San Tan Valley I believe that more than 90% of the people would like to see Johnson Utilities owned by another corporation/individual. Even if that meant water rates would increase per household 3-5%. I have lived in this home for 9 years and have not seen this corporation do anything that would not benefit them in some way or another.

I hope you take our concerns and any others when making a decision on this case.

PS: If you are not the right person to be sending this information. Please send me the contact info so I can forward this to the correct person.

Thank you,

Kamin Havens
